Confronting Satan's Lies

There is one, objective truth.

There is one, objective truth.

“There is no truth.”

“Is *that* true?”

If someone were to say...

“I can’t speak a word in English.”

“Didn’t he say that in English?”

There is one, objective truth.

“We can’t know anything.”

“Then how do you know *that*?”

“All truth is relative”

“Is *that* truth relative?”

“That’s just your interpretation.”

“Is that just *your* interpretation?”

“There are no absolutes.”

“Are you *absolutely* sure?”

“It’s true for you but not for me.”

“Is *that* true for *everybody*?”

“There are individuals who struggle with something called ‘bodily integrity disorder.’ Some of these people feel that an arm or leg doesn’t belong on their body. Should we encourage them to remove the arm/leg based on this feeling? No. A loving response will help the person see that the limb is a natural part of who they are, and they should work to align their feelings with their biology.

The same holds true for those who struggle with an eating disorder. You don’t tell the 95-pound...16-year-old, ‘Your feelings are right; you are too fat.’ They need to see that their biology is not the problem, and we can help them work through their *feelings*, which are out of concert with their body” (Seagraves and Leavine, p 40).
